Overview

Effective January 1, 2011, all new CompTIA A+, CompTIA Network+ and CompTIA Security+ certifications will be valid for three years from the date the candidate is certified. After three years, the certification must be renewed. This can be done by passing the most current exam for a respective certification or by participating in CompTIA’s new continuing education program, which will allow individuals to keep their skills current and their certification up to date without retesting.

The CompTIA Continuing Education (CE) Program has been designed to allow individuals a cost-effective method for keeping certifications current through the completion of variety of activities that demonstrate relevant industry knowledge.

Guidance on CompTIA CE Enrollment for DoD IA Workforce Members

The CompTIA Continuing Education Program launched on January 1, 2011. If you are a military service member or civilian employee or Contractor of DoD and hold a baseline IA certification in fulfillment of 8570 requirements you have until December 31, 2011 to enroll in this program or earn a CompTIA certification with a CE designation.

Recently the DoD has changed its policy as to making annual CE payments on behalf of IA personnel. Please check with your component point of contact to find if your CE fees will be paid for or if you will be responsible for paying your annual CE fees.

3. Click on CE Maintenance Fees in the menu bar or click on the CE Maintenance Fees link in the text
The following screen will only display if you have an A+, Network+ and/or Security+ certifications or a combination of these certifications. You will need to choose an intent level.

If a participant has two certifications and chooses to enroll in the highest level of certification, their lower-level certification will be tied to the program and upon completion of the CE program they would be granted both new CE certifications. CompTIA Security+ is considered the highest-level certification of the three, followed by CompTIA Network+ and CompTIA A+, respectively.

So for example, a person holding both CompTIA A+ and CompTIA Network+ certifications could fulfill CE requirements for both by completing only the CompTIA Network+ program, but not by completing the CompTIA A+ program.

5. If you are using one CE Token to pay for CE Fees, enter the Token in the Token Code field.
